

VPN VEJLEDNING TIL IOS

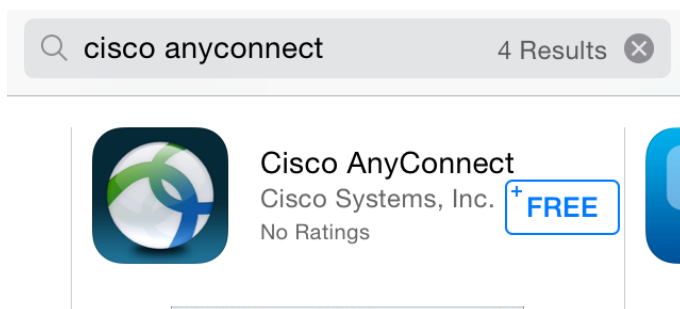

Formålet med en VPN forbindelse er, at du kan tilgå nogle af Aarhus Universitets services hjemmefra, som ellers kun er tilgængelige, når du er på universitetets netværk.

Har du problemer med at logge på VPN serveren, kan dette skyldes at du endnu ikke har fået tildelt VPN rettigheder. Kontakt din lokale IT-Support for at adgang hertil. Kontaktoplysningerne til lokale IT-Support finder du på hjemmesiden <http://au.dk/it>.

IT-Supporten yder support med forbindelse til Aarhus Universitets VPN netværk på følgende systemer:

- Windows 7 & 8
- Mac OS X
- iPad og iPhone
- Android tablet og telefon

Der findes en specifik guide til hver især.

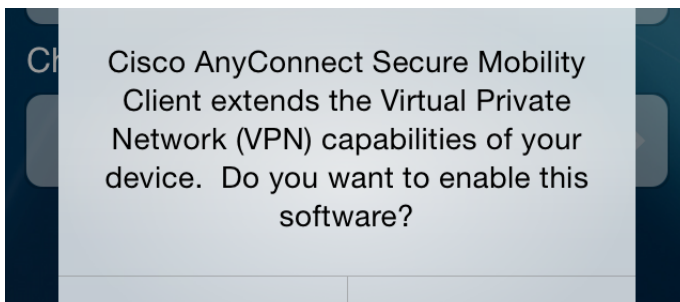

Start med at åbne AppStore og søg efter **Cisco AnyConnect**

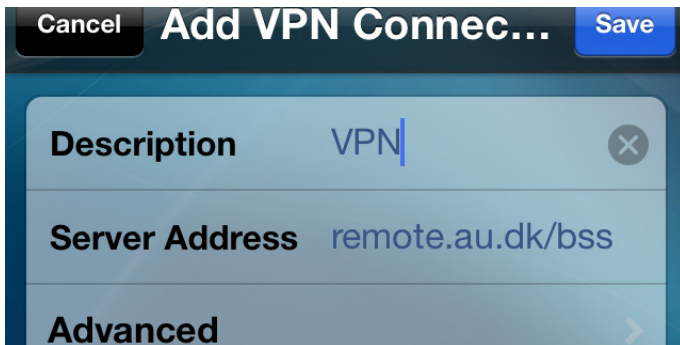

Tryk på **Free** for at installere og skriv koden til din iTunes konto.

Åben **AnyConnect** fra hjemmeskærmen når installationen er færdig.

Cisco AnyConnect Secure Mobility Client spørger første gang, om den må få adgang at ændre VPN indstillingerne på enheden. Du skal trykke **Ja** til dette, for at kunne oprette en VPN forbindelse.

Tryk **Add VPN Connection** nederst i oversigten.

Description er valgfri, men du kan evt blot kalde den VPN

Server Address skal være en af følgende:

Business and Social Sciences: remote.au.dk/bss

Arts: remote.au.dk/arts

Health: remote.au.dk/he

Science and Technology: remote.au.dk/st

Fælledesadministrationen: remote.au.dk/fa

Tryk **Save** for at gemme oplysningerne.

For at oprette forbindelse, skift **AnyConnect VPN** fra **OFF** til **ON** i oversigten.

Username er au<AUID>@uni.au.dk

Password er det samme som til mit.au.dk

Tryk på **Connect** øverst til højre, for at oprette forbindelse.

I oversigten af **AnyConnect Secure Mobility Client**, kan du se **Status** om den er **Connected** eller **Disconnected**. Tryk på **ON** for at skifte til **OFF** og afbryde VPN forbindelsen igen.

THIS GUIDE HAS BEEN PRODUCED BY

ADVANCED MULTIMEDIA GROUP

Advanced Multimedia Group is a division under AU IT supported by student assistants. Our primary objective is to convey knowledge to relevant user groups through manuals, courses and workshops.

Our course activities are mainly focused on MS Office, Adobe CS and CMS. Furthermore we engage in e-learning activities and auditive and visual communication of lectures and classes. AMG handles video assignments based on the recording, editing and distribution of lectures and we carry out a varied range of ad hoc assignments requested by employees.

In addition, AMG offers solutions regarding web development and we support students' and employees' daily use of typo3.

ANALYTICS GROUP

Analytics Group, a division comprised of student assistants under AU IT, primarily offers support to researchers and employees.

Our field of competence is varied and covers questionnaire surveys, analyses and processing of collected data etc. AG also offers teaching assistance in a number of analytical resources such as SAS, SPSS and Excel by hosting courses organised by our student assistants. These courses are often an integrated part of the students' learning process regarding their specific academic area which ensures the coherence between these courses and the students' actual educational requirements.

In this respect, AG represents the main support division in matters of analytical software.
