BSC IN ECONOMICS AND BUSINESS ADMINISTRATION*
BUSINESS IN AN INTERNATIONAL ENVIRONMENT

The BSc programme offers the best of both worlds. It gives you all-round, yet profound knowledge of different business areas, and it gives you the perspective on business processes and development on a global scale. I believe such insight is extremely important as so many companies strive to operate internationally. Aarhus BSS’s accreditation as one of the best universities in the world implied high-quality education, an exciting study life, a great academic environment, and the possibility to work with talented students from all over the world. I can definitely confirm that the school met those expectations 100%.

MIHAELA MIHOVA
BSc in Economics and Business Administration, from Bulgaria
Project Manager, Business Development EMEA, Pandora

This programme aims to give students a broad introduction to a number of economic, legal and organisational issues within the field of business. In addition to business issues, the programme also considers socioeconomic aspects and the interaction between economics and business administration.

In specific terms, students learn to analyse a company’s financial problems and issues and to develop business strategies. Students also learn about organisation, product development, sales, project management, and innovation, and they will develop insight into the theories and methods used to understand companies’ internal and external relations.

The programme brings together students who share a common interest in what goes on in companies, organisations, and in society at large. Some students will be crazy about everything relating to stocks and bonds, others are mostly interested in management – but all will share a fundamental interest in business administration.

SPECIALISE WITHIN EIGHT PROFILES, CREATE YOUR OWN, OR STUDY ABROAD
All semesters except for the fifth include all the compulsory courses within Economics and Business Administration. In the fifth semester, students can choose to specialise within one of eight profiles, to create their own profile by choosing electives, or to study abroad at a business school or university outside Denmark.

Students can currently choose from eight profiles:

• Business Ethics and Management
• Corporate Communication
• Financial Management
• Global Business
• Sustainable Business
• Innovation and Entrepreneurship
• International Business (Herning)
• Global Marketing (Herning)

CAREERS
Graduates of the programme have everything they need to handle business administration issues in both multinational and international companies – whether in trade and industry, in the service sector, in financial institutions, or in accountancy or consultancy. The degree also qualifies graduates for further studies at master’s level in Denmark or abroad.
