

## Setup Pexip Infinity Connect on Desktop

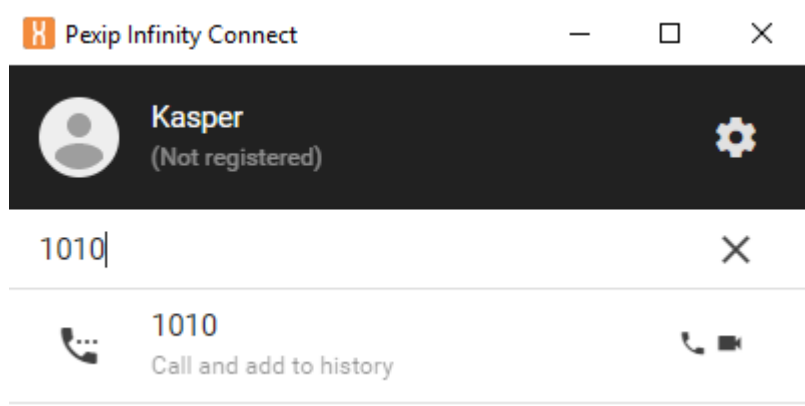

1. Download Pexip Infinity Connect from <https://www.pexip.com/download>
2. Set up the server address and domain of Pexip Infinity Connect by clicking the settings icon

3. Scroll to the bottom of the client and set "vmeet.au.dk" as Default Domain and Server Address and then click "OK"

4. Enter the meeting room number in "Enter conference alias or URI" and press enter to call

5. You will then be connected to the virtual meeting room you have chosen
