

# Blackboard Basic Course in English

## Participants

Teachers at Arts

## Content

The Course aims to provide an overview of the learning system Blackboard. The participants are introduced to selected functions. The focus is features in the Blackboard courses.

## Learning Goals

That the participant:

- obtains a basic knowledge of Blackboard opportunities
- gain skills in the creation of content in their own course
- becomes familiar with the teaching material that contains basic information about Blackboard

## Course Format

1½ hours

Participants must, if possible, bring their own computer/Laptop to the course. There will be hands-on.

## Materials

The focal point of the basic course is the Blackboard key cards. They are handed out on the course.

## Number of participants

Max. 15
