

This is a guide for personalising your dashboard (the front page in WorkZone)

Instruction	Explanation	Navigation
<p><b>Start changing your dashboard</b></p>	<p>If you want to change the standard settings, go to <b>Home</b> tab.</p> <p>Click on the wrench icon <b>Personalize</b> on the navigation pane, and the <i>Dashboard configuration</i> window opens.</p>	
<p><b>Drag and drop</b></p>	<p>To change the position of the lists on the dashboard, drag them to the desired position.</p> <p>To change the size of every window (widget), pull the corners of it.</p>	
<p><b>Get list</b></p>	<p>If you want to insert a list, which is not included in the standard setup of the dashboard, choose the list from the relevant category under <i>Available widgets</i> and drag it to the desired position.</p> <p>Tip: The searches you have saved will be in <i>My lists</i>.</p> <p>Save your changes.</p>	<p>Dashboard configuration</p> <p>Available widgets</p> <ul style="list-style-type: none"> <li>▶ CASES</li> <li>▶ CONTACTS</li> <li>▶ DOCUMENTS</li> <li>▶ MY LISTS</li> <li>▶ PROCESSES</li> <li>▶ SHARED LISTS</li> <li>▶ SUBSCRIPTIONS</li> <li>◀ USER TASKS</li> </ul> <p>Save</p>
<p><b>Remove list</b></p>	<p>To remove a list from the dashboard, double click on the list.</p>	
<p><b>Rename Dashboard</b></p>	<p>It is possible to rename your dashboard. Click on the nut by the <i>DASHBOARD</i> – a wrench will now appear next to <i>Default dashboard</i>.</p> <p>Click on the wrench and then on <b>Rename dashboard</b>.</p>	

<p><b>Multiple dashboards</b></p>	<p>It is possible to have more than one dashboard. To create a new dashboard, click on <b>Dashboard</b> on the navigation pane.</p> <p>Name your new dashboard and click Save.</p>	
<p><b>Customise columns</b></p>	<p>It is possible to choose which columns to display in the windows (widgets) on your dashboard. In the window (widget) you want to customise, click on the arrow-icon in the top right corner.</p> <p>The window then expands.</p> <p>Right-click on the pane with column names, then click <b>More...</b></p> <p>In the dialog box <b>Select columns</b> you can see the existing columns on your list (left window) and add possible columns (right window). Add a column from the window on the right by ticking the box next to it and then click the bottom arrow.</p> <p>To remove a column from the list, tick the box next to it, then click the top arrow.</p> <p>You can also double-click the headlines to move the columns.</p> <p>Drag and drop the columns to place them in your desired order.</p> <p>Click <b>Save</b> to save the new settings.</p> <p>Tip: To widen or reduce the width of the columns, pull next to the column title.</p> <p>You can reset the standard configuration of the columns by clicking Reset in the bottom left of the dialog box <i>Select columns</i>.</p>
