and Higher Education

WELCOME TO THE INTERACTIVE WEBINAR ON THE WORLD'S LARGEST PUBLIC-PRIVATE HEALTH PARTNERSHIP

Gain early insights and seize the opportunity to contribute and help shape the research priorities of the coming health partnership, Innovative Health Initiative (2021-2027)

Today the Innovative Medicines Initiative (IMI2) is a public-private partnership in life science with a 3.3 billion EUR budget for the period of 2014-2020. The Innovative Health Initiative (IHI 2021-27) will be its successor and will bring the pharmaceuticals, diagnostics, medical devices, imaging and digital sectors together for precompetitive R&I in areas of unmet public health needs to accelerate the development and uptake of people-centered health care innovations.

The coming IHI partnership will offer research and funding opportunities for: hospitals, universities, SMEs, mid-cap companies, patient associations and regulators as well as other stakeholders supporting effective treatments to the benefit of patients and health care systems.

This session will give you the opportunity to:

- Get early insights into and contribute to the development of research priorities / topics ideas for the Innovative Health Initiative
- Debate with the industry partners behind the public-private partnership

PROGRAMME THURSDAY 8 OCTOBER 2020

15.30 – 15.35 Welcome
Kim Kryger, National Contact Point,
Danish Agency for Science and Higher Education

15.35 – 16.00 Introducing Innovative Health Initiative (IHI 2021-2027)
Magda Chlebus, Executive Director Science Policy & Regulatory Affairs, EFPIA & Annika Eberstein, Regulations & Research Senior Manager, COCIR & Patrick Boisseau Director Research & Innovation, MedTech Europe
