

This is a guide to manage the detail page on a case, a document or a contact. The detail page can give you previews of the documents on a case, and it contains information on the case/document/contact in the list.

Phase	Instructions	Navigation
Open detail page	Open a case/document/contact. The detail page is now visible in the bottom of the window.	
Open Tabs selector	Click on the Plus icon in the top right corner of the detail page.	
Add or remove tabs from the detail page	In the dialog box <i>Tabs selector</i> the available tabs are highlighted in red and the visible tabs are highlighted in green. Drag and drop the tabs to the desired position.	
Save	Click Save .
