

Instructions for Workzone

[Dette dokument på dansk](#)

Before you start using Workzone, you must read these instructions carefully. Make sure that you have read and understood the security-related aspects of user behaviour in Workzone.

You are now registered as a user in Workzone. Tomorrow, you will be able to access the system.

Access to Workzone

Use this link to open the Workzone web client: <https://workzone.uni.au.dk/app/client/>

Check that you have access by clicking this link to see this case:

<https://workzone.uni.au.dk/app/client/#/Files/1149388> The add-in programme Workzone for Office makes the start-up of Office products a bit slower.

System support

- Please send any **questions or information about errors** to your local super user. You can find your local super user here: <https://medarbejdere.au.dk/administration/hr/hr-systemer/esdh/esdh-program/find-din-superbruger/>
- If you need **additional support**, please see the website: <https://medarbejdere.au.dk/administration/hr/hr-systemer/esdh/support/>
- On our website, you can find **guides, FAQ** etc: <https://medarbejdere.au.dk/administration/hr/hr-systemer/esdh/>

For Window users

Workzone for Office plug-in will automatically be installed on your computer. If this is not the case, please contact your local IT helpdesk. Find your local IT helpdesk here:

<https://medarbejdere.au.dk/administration/it/kontakt-it-support/>

For Mac users

Workzone365 will automatically be installed on your computer. Please note that not all functions are compatible with Mac's operating system, e.g. integration with the Office programs only works partly.

Secure use of Workzone

Workzone is AU's electronic case and document management system. As a Workzone user, you help to protect and keep the system's data secure.

- You are only allowed to access Workzone via IT equipment issued by AU.
- You may only search for and work with the personal data that is relevant for the work tasks you have been assigned. This also means that you are **not** permitted to access your own data.
- Data extracts from Workzone may only be shared with colleagues who are allowed access to the same system data as yourself. When you have extracted data from Workzone, it is **your responsibility** to ensure that the data is shared and stored securely, and that it is deleted as soon as it is no longer needed.

- Please note that your system activity is logged for security reasons.

As an Aarhus University employee, you must comply with AU's rules regarding information security which you can find here: www.au.dk/informationssikkerhed.

Read more about protection of personal data here:

<https://medarbejdere.au.dk/informationssikkerhed/databeskyttelse/>

Using Power Automate (and other personal robots) on Workzone

Read the detailed guidelines for using Power Automate on Workzone:

<https://medarbejdere.au.dk/administration/hr/hr-systemer/esdh/workzone-robotter>
